ADD/A (Colonel White) [REDACTED]

12 January 1952

1. Received memorandum from the Inspector General stating that he had learned of dissatisfaction and low morale in the Telephone Branch, Administrative Service. I referred this to the Chief, Administrative Service, and to the Personnel Director suggesting that the Personnel Director investigate this situation with Administrative Service and make a report.

2. Bill Peel reports that he is having some difficulty determining what personnel we might give working space at the [REDACTED] but he hopes to have a recommendation within the next few days.

3. [REDACTED] was in to say goodbye. As a result of his relations with our Central Processing Branch in connection with his own departure, he says he thinks we should place all of the personnel in this Branch under the AD/P. (Some of them are now on detail from other places.) He feels that in any case we should not allow the present personnel, who are doing an excellent job, to be rotated and that the Central Processing Branch should have at least one (and possibly two) outside telephone line in order to expedite their contacts with commercial travel concerns. I have [REDACTED] looking into this situation today.
